

Bring on the next Ice Age!

BOW LOCK

Helps keep snow out and warmth in. Easy to adjust while wearing gloves.

WATER REPELLENT NYLON UPPERS

Strong, durable, water repellent nylon is quilt backed for added warmth. Uppers are triple lock stitched to bottoms in independent rows for long wear.

"TRIPLE D-RING" SPEED LACERS

Make lacing fast and easy.

HANDCRAFTED NATURAL RUBBER BOTTOMS

Scentless and guaranteed to stay flexible at even the most frigid temperatures. Lined with 3/8" foam insulation for extra warmth.

COLDPROOF INSOLE

The built-in insole is a full 1/2" of poly-felt for excellent insulation.

AERO-TRAC OUTSOLES

Classic Sorel design ensures excellent four way traction. Self-cleaning tread pattern of cleats and stabilizing bars.

With tall 16" 'Storm Trooper' styling and Arctic tested warmth to -64°C, Sorel Glacier is everything a superwarm nylon boot should be.

SOREL® THERMOPLUS® LINER SYSTEM

The revolutionary liners, with special absorbent insoles, designed to transport perspiration away from the foot and keep feet dry and comfortable at all times. Removable for quick, easy drying.

1. Moisture repellent inner layers.
2. Radiantex outer layer.
3. Moisture absorbing removable insole.
4. Radiantex reflects body heat back to the foot.
5. Moisture is pulled through the liner layer and is transported to the insole where it is stored away from the foot.
